

NOVA

DESCRIPTION AND CARE INSTRUCTIONS

Leather is a natural product – each hide is unique and carries the natural characteristics of its natural origin and these will vary from hide to hide. As leather ages, it matures and develops a patina.

GENERAL

- Avoid direct sunlight on to the leather.
- Avoid direct heat on to the leather.
- Avoid placing the leather next to a heat source.
- Dust and vacuum regularly to avoid a build-up of dust; if vacuuming, use a soft head attachment
- Wipe off stains and spills immediately with a clean soft lightly damp cloth taking care not to soak the leather.
- Avoid being near any leather with any type of pen or ink.
- Do not use normal household cleaning products as these may react with the finish causing cracking.
- Do not use saddle soap or shoe polish on the leather.

Nova

- Chrome free tanned cow hides, aniline through dyed and nubuck finished leather.
- The top surface is velvety in touch and effect, and it is created by sanding the leather with very fine paper.
- The velvet effect of this leather is called “nap”, and this can be sealed and the effect get reduced on continuous use. It can be rejuvenated by a soft brush or sponge.
- This leather can easily soil on upholstery use, Suitable Nubuck cleaning product can be used to maintain this leather.
